The U S. Department of Energy Rocky Flats Office has developed an Air Quality Management Plan (AQMP). The Plan is a baseline assessment of the status of the existing technical programs as compared with applicable regulatory requirements. The AQMP also informs, involves and solicits input from regulators and public groups, municipalities, and environmental advocacy organizations on major program changes and upgrades.

A 60-day comment period for the plan begins Monday, July 8, 1991 and ends Monday, September 9, 1991. Copies of the Rocky Flats Air Quality Management Plan are available for review at the following locations.
